

## Croatian biggest betting house project adopted EB1304NET as their solution

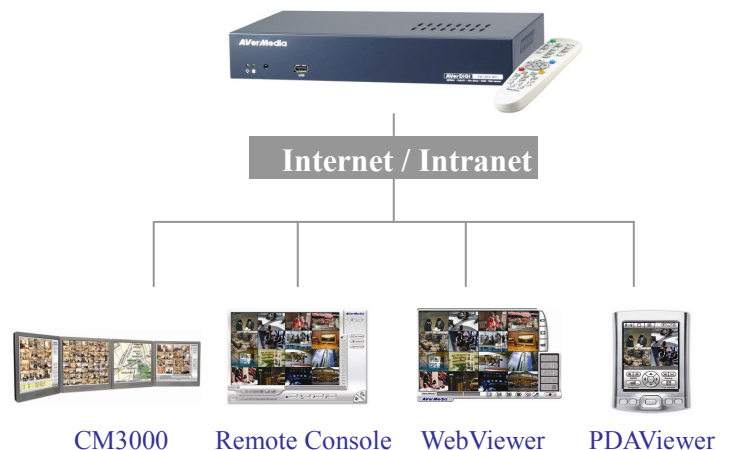

"All of the 327 EB1304NET DVRs work perfectly" says Supersport, enduser customer.

Supersport is the biggest Croatian betting house enterprise who recently applied AVerDiGi EB1304NET at 327 branches to enforce government's law of security regulation. At Supersport, there is a need to fully remote control DVRs from 327 branches to protect both their business and customers. After a two-month field test, Supersport decided to adopt EB1304NET as their surveillance solution. Supersport further commented that no one from 327 EB1304NET DVR which they purchase, had any technical problem in work. All of units work perfectly since installation. Supersport's confidence in our DVRs is yet another prove of AVerDiGi DVR can practically fulfill user's surveillance application. Up to now, we are still having ongoing similar projects for EB1304NET and will continue to provide solutions meeting our customers' needs.

### EB1304NET Features

Apart from stability, AVerDiGi EB1304NET is the best solution for its compact size, low-noise design and powerful software integration for ownership's central management of nationwide point of sales. With the combination of cameras, Central Management System, Remote Console, WebViewer, and PDAViewer, EB1304NET can develop comprehensive defense while encountering abnormal events detected. EB1304NET has been widely adopted for banking, shopping malls and supermarkets.
