

AVerMedia honored the "Editor's Choice" by SDM

AVerMedia INFORMATION, Inc. announced the revolutionary DVR, AVerDiGi EB1704HB WiFi, had been the best "Editor's Choice" by SDM in September issue.

AVerDiGi EB1704HB WiFi is a 4CH wireless hybrid DVR. It shatters market limitation by developing a wireless solution and video encryption for privacy protection. With simple Plug & Play architecture, it allows users to save installation cost and time by pre-configured. Furthermore, video

intelligence ensures that alerts, accessible through a cell phone, PDA or remote computer, are sent if there is motion detected, or if an external sensor device to indicate danger or triggers external alarm systems to lock doors, turn on lights, and more.

According to SDM chief editor, AVerDiGi EB1704HB WiFi was chosen due to it has created the world's first wireless and hybrid DVR system that provides crystal-clear video images and advantage of the wireless IP-world and breakthroughs in seamless DVR, camera and router compatibility.

"We are thrilled to be chosen as Editor's Choice by SDM," said David Hwang, AVerMedia Sales Operation Manager in US office. "This successful achievement not only demonstrates our excellent capabilities in integrating a powerful DVR but also proves our insights and foresights in product planning, technology development, and quality assurance."
